PRELIMINARY AMENDMENT

Prior to examination, please amend the application as follows:

In the Claims:

Please cancel claims 1-17 without prejudice to renewal.

Please add the following claims:

- 18. In a computing environment, a method of facilitating the debugging of mixed-language script that interacts with features of a host through a programming interface, the method comprising:
- providing a debugging environment for debugging mixed-language script, the mixed-language script interacting with features of a host through a programming interface exposed by the host, the mixed-language script including a first script portion written in a first language and a second script portion written in a second language;
- recognizing a debuggable entity created from the mixed-language script and context information;
